

# FINLAND

## TARGET ADEQUACY:

**2.8/45**

|      |                                |     |
|------|--------------------------------|-----|
| 1.1. | 2030 Non-ETS GHG targets       | 1.5 |
| 1.2. | National 2030 GHG target       | 0.0 |
| 1.3. | 2030 Renewable Energy target   | 0.0 |
| 1.4. | 2030 Energy Efficiency targets | 0.0 |
| 1.5. | National 2050 target           | 1.3 |

## PROCESS QUALITY:

**7.2/10**

|      |                              |     |
|------|------------------------------|-----|
| 3.1. | Effective stakeholder inputs | 5.6 |
| 3.2. | Compliance                   | 1.6 |

## POLICY DETAILS:

**29.1/45**

|        |                                                                |     |
|--------|----------------------------------------------------------------|-----|
| 2.1.   | Policies and Measures (PAMs) for achieving non-ETS GHG targets | 6.0 |
| 2.2.   | Policies and Measures (PAMs) for achieving RES targets         | 8.2 |
| 2.3.   | Policies and Measures (PAMs) for achieving EE targets          | 3.3 |
| 2.4.   | Coal use                                                       | 5.0 |
| 2.5.   | Phase out of fossil fuel subsidies                             | 0.0 |
| 2.6.1. | Investment data                                                | 4.0 |
| 2.6.2. | Finance measures                                               | 2.7 |

- ✓ The draft plan provides good details on existing and planned policies and measures for non-ETS emissions and renewables, ranking fourth on policy details.
- ✓ The plan indicates a coal phase-out by 2030.
- ✓ One of only five Member States that details specific investment needs for the country as a whole and for several sectors.
- ✗ Shows overall limited ambition on renewables, energy efficiency and non-ETS emissions for 2030.
- ✗ There is no information on fossil fuel subsidies.
- ✗ No consultation process was undertaken for the draft plan.

This scorecard is the outcome of a ranking exercise of the draft National Energy and Climate Plans (NECPs) of the 28 EU Member States. It is based on the information provided directly in the draft NECPs.

The underlying assessment focuses on three core dimensions: the adequacy of the communicated climate and energy targets, the detail of the policy descriptions, and the quality of the NECP drafting process.

It is not a full impact assessment and does not evaluate the likely effectiveness of the presented existing or additional policies or the accuracy of the information provided.

For more information on the analysis carried out please see the report "Planning for Net Zero: Assessing the draft National Energy and Climate Plans", May 2019.
