

AUSTRIA

TARGET ADEQUACY:

5.3/45

1.1.	2030 Non-ETS GHG targets	1.5
1.2.	National 2030 GHG target	0.0
1.3.	2030 Renewable Energy target	0.0
1.4.	2030 Energy Efficiency targets	2.2
1.5.	National 2050 target	1.6

PROCESS QUALITY:

7.5/10

3.1.	Effective stakeholder inputs	5.6
3.2.	Compliance	1.9

POLICY DETAILS:

10.8/45

2.1.	Policies and Measures (PAMs) for achieving non-ETS GHG targets	0.0
2.2.	Policies and Measures (PAMs) for achieving RES targets	4.6
2.3.	Policies and Measures (PAMs) for achieving EE targets	3.3
2.4.	Coal use	2.5
2.5.	Phase out of fossil fuel subsidies	0.0
2.6.1.	Investment data	-1.0
2.6.2.	Finance measures	1.3

- ✓ The draft plan includes an energy efficiency target slightly above the minimum legal requirement.
- ✓ The draft NECP anticipates a coal phase-out, yet no further details are provided.
- ✓ Austria has undertaken a consultation process open to stakeholders from all sectors and civil society.
- ✗ The draft plan shows low ambition for non-ETS emissions and renewables targets.
- ✗ It provides only some information on existing and planned policies and measures for energy efficiency and very little detail on existing and planned policies and measures for non-ETS emissions
- ✗ It also gives insufficient information on projections for existing and planned policies for renewables and energy efficiency.
- ✗ The plan does not include information on fossil fuel subsidies, nor a phase-out schedule.
- ✗ No information on the required investments up to 2030.

This scorecard is the outcome of a ranking exercise of the draft National Energy and Climate Plans (NECPs) of the 28 EU Member States. It is based on the information provided directly in the draft NECPs.

The underlying assessment focuses on three core dimensions: the adequacy of the communicated climate and energy targets, the detail of the policy descriptions, and the quality of the NECP drafting process.

It is not a full impact assessment and does not evaluate the likely effectiveness of the presented existing or additional policies or the accuracy of the information provided.

For more information on the analysis carried out please see the report "Planning for Net Zero: Assessing the draft National Energy and Climate Plans", May 2019.
