

BULGARIA

TARGET ADEQUACY:

3.1/45

1.1.	2030 Non-ETS GHG targets	1.5
1.2.	National 2030 GHG target	0.0
1.3.	2030 Renewable Energy target	0.0
1.4.	2030 Energy Efficiency targets	0.0
1.5.	National 2050 target	1.6

PROCESS QUALITY:

0.9/10

3.1.	Effective stakeholder inputs	0.0
3.2.	Compliance	0.9

POLICY DETAILS:

10.6/45

2.1.	Policies and Measures (PAMs) for achieving non-ETS GHG targets	2.0
2.2.	Policies and Measures (PAMs) for achieving RES targets	4.9
2.3.	Policies and Measures (PAMs) for achieving EE targets	0.4
2.4.	Coal use	0.0
2.5.	Phase out of fossil fuel subsidies	0.0
2.6.1.	Investment data	2.0
2.6.2.	Finance measures	1.3

- ✓ The draft NECP provides yearly targets for renewable energy until 2030 by technology and by sector.
- ✓ The dimension on the internal energy market is well-developed, especially with respect to electricity interconnections.
- ✗ Low greenhouse gas (GHG) emissions ambition, only stabilising emissions non-ETS sectors by 2030 (relative to 2005): no emission reductions foreseen.
- ✗ Bulgaria mentions restricted opportunities to invest in renewable energies, such as the need to protect biodiversity, as a reason to propose low renewables targets.
- ✗ The NECP relies on solid biomass (mainly firewood) and there are no details on how to ensure that wood is truly sustainable.
- ✗ Consultations with stakeholders have not been launched yet.

This scorecard is the outcome of a ranking exercise of the draft National Energy and Climate Plans (NECPs) of the 28 EU Member States. It is based on the information provided directly in the draft NECPs.

The underlying assessment focuses on three core dimensions: the adequacy of the communicated climate and energy targets, the detail of the policy descriptions, and the quality of the NECP drafting process.

It is not a full impact assessment and does not evaluate the likely effectiveness of the presented existing or additional policies or the accuracy of the information provided.

For more information on the analysis carried out please see the report "Planning for Net Zero: Assessing the draft National Energy and Climate Plans", May 2019.
