

ITALY

TARGET ADEQUACY:

2.6/45

1.1. 2030 Non-ETS GHG targets	1.5
1.2. National 2030 GHG target	0.0
1.3. 2030 Renewable Energy target	0.0
1.4. 2030 Energy Efficiency targets	0.0
1.5. National 2050 target	1.1

PROCESS QUALITY:

2.2/10

3.1. Effective stakeholder inputs	0.0
3.2. Compliance	2.2

POLICY DETAILS:

22.1/45

2.1. Policies and Measures (PAMs) for achieving non-ETS GHG targets	3.0
2.2. Policies and Measures (PAMs) for achieving RES targets	2.5
2.3. Policies and Measures (PAMs) for achieving EE targets	5.8
2.4. Coal use	2.5
2.5. Phase out of fossil fuel subsidies	1.6
2.6.1. Investment data	4.0
2.6.2. Finance measures	2.7

- ✓ Coal-phase out is mentioned for 2025.
- ✓ Explicit and detailed description of fossil fuel subsidies, but no phase-out schedule is provided.
- ✓ Detailed reporting of required investments for supporting planned policies and measures and sectoral breakdown of these investments.
- ✗ Italy plans to use flexibilities to achieve its non-ETS greenhouse gas (GHG) emissions target.
- ✗ Insufficient detail on policies and measures for non-ETS GHG emissions reduction, so not possible to assess their credibility and ability to reach the non-ETS target.
- ✗ The energy efficiency ambition is too weak in relation to the EU objectives.
- ✗ No consultations were held while drafting the plan.
- ✗ Poor level of detail for renewables-related policies and measures.

This scorecard is the outcome of a ranking exercise of the draft National Energy and Climate Plans (NECPs) of the 28 EU Member States. It is based on the information provided directly in the draft NECPs.

The underlying assessment focuses on three core dimensions: the adequacy of the communicated climate and energy targets, the detail of the policy descriptions, and the quality of the NECP drafting process.

It is not a full impact assessment and does not evaluate the likely effectiveness of the presented existing or additional policies or the accuracy of the information provided.

For more information on the analysis carried out please see the report "Planning for Net Zero: Assessing the draft National Energy and Climate Plans", May 2019.
