

Stichting European Climate Foundation

RSIN: 819062753

1. Our role & strategy

The European Climate Foundation (ECF) was established in The Hague in early 2008 as a 'foundation of foundations' to collaborate in ensuring Europe's transformation to a low-carbon economy. It was established as a major philanthropic initiative to promote climate and energy policies that greatly reduce Europe's greenhouse gas (GHG) emissions and to help Europe play an even stronger international leadership role to mitigate climate change. We aim to be the smartest place in Europe for funding climate change mitigation strategies, by identifying the opportunities for intervention – the 'sweet spots' where philanthropic investment can make a real difference.

5. Objectives

1. The foundation is established to pursue the following objectives:
 - a. to promote climate and energy policies pertaining the promotion of greenhouse gas emission reduction; to promote and contribute to the international role of Europe in limiting climate change; to further and promote efficient and safe energy consumption; to sustainably develop clean technologies relating to energy consumption; and to minimize harmful emissions (including ozone gas emissions) in view of climate change; and
 - b. to educate and raise awareness among the general public regarding the topics described in sub-paragraph "a" above and regarding any related topics, all in the broadest sense
2. The ECF aims endeavor to realize its objectives by raising funds and accepting donations, and subsequently by organizing programmes and re-granting its financial means to achieve its objectives.
3. The ECF shall be a non-profit organisation.
